It is a virtual startup workshop based on design thinking that aims to “create something (One) from nothing (Zero)”.
You will learn the method of “design thinking” and skill up their innovation skills.
You will also learn how to create a business plan. At the end of the 5-day workshop, you will present the business plan you created in a group. ZTO is part of the ELEP (Engineering Leaders English Program) run by the Faculty of Engineering, and is open to all students in Kyushu University.

Zero to One

ZERO TO ONE SCHEDULE

YOUR IDEAS HAVE THE POWER !

A program that teaches the innovation methodology of “design thinking,” originating from the Stanford University Design School, and challenges participants to gain hands-on entrepreneurial experience.

Before the ZTO begins, we will hold an online orientation (2/17, 10:00-11:30)

and an online lecture on corporate accounting (2/18, 10:00-11:30) via Zoom.

This is a workshop-style lecture with a focus on group work. Think outside the box.

Pre-assignments required. (Details will be provided after participation is confirmed.)

We welcome participants with diverse experiences and backgrounds.

Participants work in teams to generate innovative business ideas and compete to secure investment in a final presentation.
